LISTA

FLEXIBLE AND ALWAYS READY

On land, sea or air, today's armed forces are being challenged to adapt as never before. With ever changing mission profiles, base relocations, and expansions; new equipment and supplies that must be commissioned, maintained and stored: mission readiness is the key to success in the face of these challenges.

Fully customised

Modular structure with freely combinable elements, fully customisable options for size, equipment, locking mechanism, colour, and drawer partitioning.

Perfectly flexible

Unique solutions built to ensure interchangeability and flexibility. Standardised modules ensure easy set-up and upgradability for changing demands.

Extremely robust

Stability and functionality are guaranteed, even under the highest dynamic loads. All products are designed with a load-bearing capacity up to 5.5 tonnes.

Unmatched quality

Products that are built to last and to perform under the harshest conditions. Excellent materials, durable mechanics and robust coatings ensure longevity and functionality.

INVEST IN SUCCESS, RECRUIT THE BEST

As the leading supplier of workshop equipment and storage systems, our products are known for their unmatched quality, durability, longevity and efficiency. We commit to design mission-perfect solutions, field tested and trusted by military forces around the globe.

EXPERIENCE IN DEFENSE AND SECURITY

For more than four decades, LISTA has been assisting defence and security customers in meeting their complex and often individual requirements by supplying unique storage and workspace solutions. Their rugged design and full suite of security and safety features guarantee operational readiness in the most hostile environments. No matter the mission, LISTA keeps your gear secured, maintained, and ready for action—whenever and wherever duty calls.

PERFECTLY ADAPTED

With LISTA, your workspace operates efficiently—on land, at sea, and in the air. From stackable cabinets to lightweight storage solutions, we provide components for a wide range of applications, including mobile workshops, containers, and trailers. Our systems can also be fully customised to meet individual needs.

AVAILABLE, READY, AT HAND

Supply is pivotal, availability a must, especially when military units are handling assignments. LISTA supports stationary and mobile logistics formations with customized workspace and storage systems: No matter whether a firmly installed workbench, or a mobile tool cabinet is needed. Functional solutions of our workshops simplify the important job of servicing and maintenance specialists.

Highest load capacities

Up to 475 kg per universal shelf or 200 kg per drawer for storing heavy items, devices and tools.

Robust full coating

Powder coatings and other ruggedized surfaces ensure resistance to heavy use.

Reliable drawer safety catch

No accidental opening thanks to double locking.

Load securing options

Pull-out shelves with additional eyelets or shoulder eye-bolts ensure secure lashing.

Precisely fitting partition material

Foam inserts for optimal protection during storage and transport.

PMMA safety cover

Hinged PMMA covers ensure that small parts remain in their place at all times.

Screwed dividers and slotted partitions

For easy subdivision of drawers, secure transport and perfect arrangement of stored items.

Secured transport

NATO approved multi-locking for additional safety during offroad and air transport.

Heavy duty pull-out hangers

Storage for chains, cables and lifting gear made easy accessible through drawer slides.

PROTECTING WHAT PROTECTS YOU

Maximizing space in compact environments is crucial for efficiency and safety. A well-structured layout ensures easy access to tools and equipment, reducing downtime and improving workflow. Strategic organization minimizes clutter, prevents hazards and enhances operational effectiveness. Thoughtful placement of essential items allows for seamless movement and quick response in critical situations.

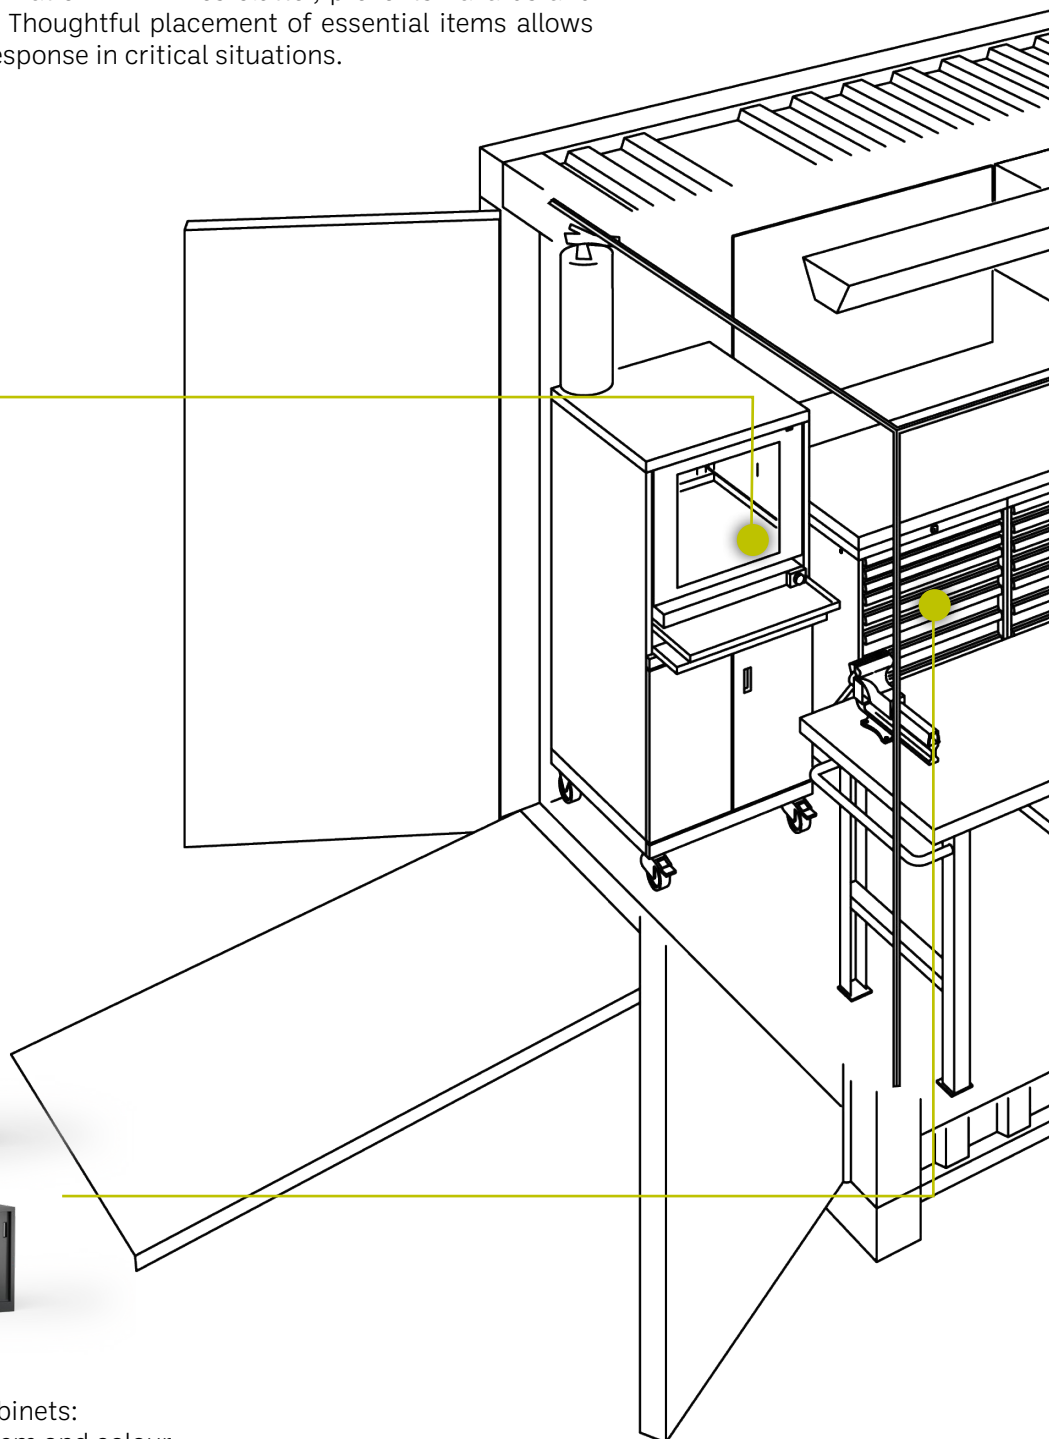

Test and inspection workstations

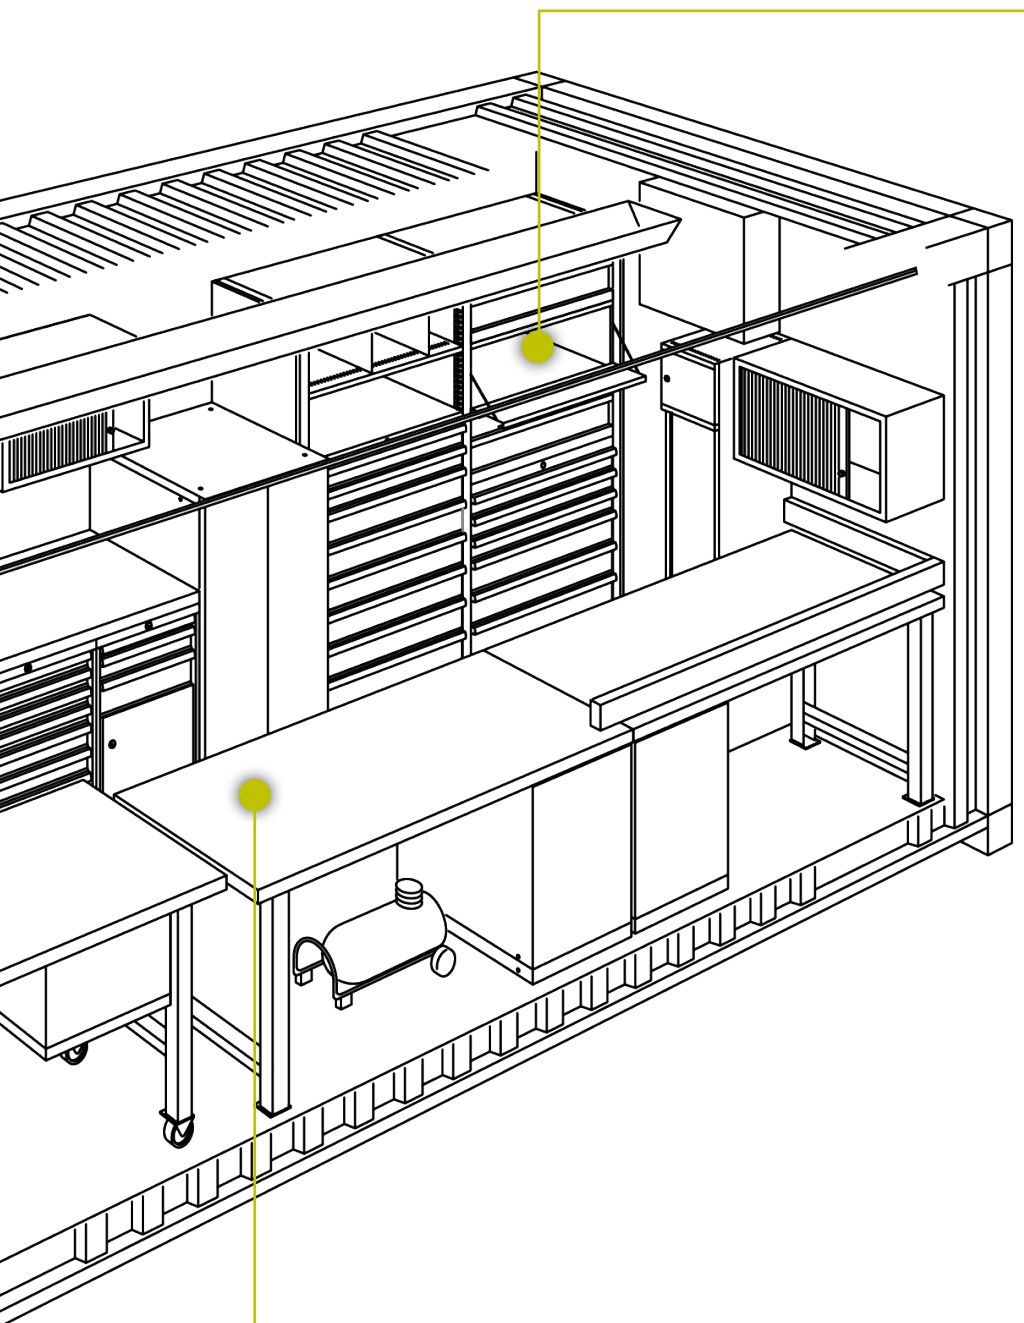

As a compact office or PC unit with power connection, dust cover and storage space.

Drawer cabinets

Variable and flexibly configurable cabinets: drawer size, equipment, locking system and colour. Drawers with a load capacity of up to 200 kg.

Drawer storage walls and shelves

In variable dimensions and equipment options with a load capacity of up to 5.5 tonnes per shelving unit.

Workbenches

With a load capacity of up to 3 tonnes, variable in size, workbench surface, number of drawers and customized dimensions.

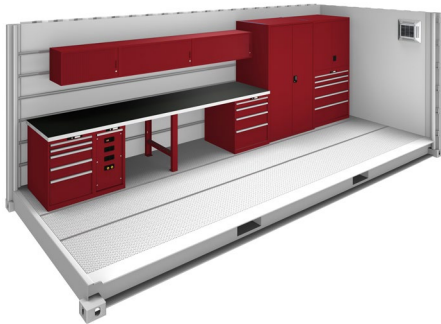

Heavy-duty shelves

With a load capacity of up to 9 tonnes per shelving unit with fixed or pull-out frame, and secure locking.

IN THE RIGHT PLACE, AT THE RIGHT TIME

Today, armed forces must cope with a multitude of equipment and supplies ranging from personal gear to complex high-technology systems. The challenges linked with the requirement to service, store and logistically manage tools, optics, radios, or weapons and ammunition are ever present. With our wide range of storage solutions, LISTA specifically addresses the unique requirements of the defence industry for efficient, space saving and cost-effective solutions.

Workshop and maintenance

Custom made workshop container are ready to operate nearly instantly after deployment. Fast and efficient maintenance and service of technical goods is ensured.

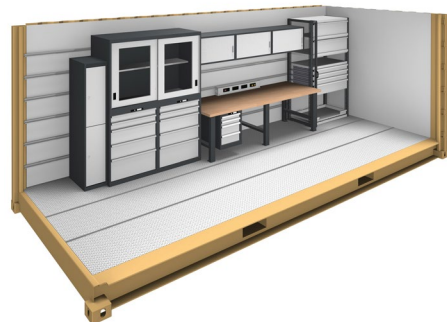

Warehouse

Highest storage density and maximum transport security for stored items such as tools or spare parts. Everything is protected and secured at all time.

Office or laboratory

Working on site without compromising on functionality and ergonomics as well as optimal protection of devices and materials.

Individual applications

Tailor made container solutions made easy due to modular design, robust construction and individual configuration options.

FROM PLAN OF ACTION TO MISSION

At LISTA, your project is in expert hands. We understand mobile workstation demands and address your specific needs to develop tailored solutions that let you focus on your work. Our planning builds on the proven LISTA system, flexibly expandable with custom components. We provide complete support - consulting, planning, visualization, installation, and ongoing service - ensuring a seamless experience throughout.

CONTAINER-SPECIFIC SOLUTIONS

High performance fastening

LISTA modules on horizontal rails ensure functionality and stability even under high dynamic loads and torsion of the container.

System integration

With connections for compressed air and power.

Special container equipment

Insulation, air conditioning, functional flaps, floor properties, fastening rail system and other configuration options, individually tailored to suit your specific purpose.

EVERYWHERE, WHEREVER YOU ARE

LISTA delivers top-tier products crafted with precision in Switzerland and Germany, adhering to the highest quality standards. To uphold local customer service, LISTA maintains an international sales network, that covers all of Europe. A close-knit network of retail partners tops off the service that we offer. We value partnership built on trust, always standing by your side to meet your needs. Together, we work to achieve success with unwavering support and commitment.
